SPORTCITY

125.200

Cambridge Withe

Sportcity is an agile commuter in city traffic.

THE PLEASURE OF A SPORTS SCOOTER

Practicality, elegance, agility, stability, comfort and sports performance, Sportcity has everything it takes to satisfy even the most demanding rider. Designed and built for intensive daily use, Sportcity stands out for its modern, compact lines and sports performance without renouncing reliability and comfort. Sportcity combines a practical flat platform with plenty of power (21 HP) to make light work of city traffic, commuting to and from work and shopping, saving valuable time and delivering entertaining yet safe performance. Sportcity is the practical answer to your needs, with a big plus – Aprilia style.

Four stroke, liquid cooled Euro 2 engine.

The flat platform lets you carry even bulky bags.

The flat platform makes Sportcity both practical and comfortable.

The spacious under-seat storage compartment provides plenty of room for a helmet and more besides.

SUPERIOR CHARACTERISTICS

Sportcity's ergonomic design is the perfect combination of style and functionality, giving eye-catching good looks plus practicality in all situations. The comfortable seat ensures a correct riding position and sitting height for riders of all statures and two grab handles and folding footrests offer even the passenger excellent comfort and safety. The spacious under-seat storage compartment provides plenty of room for a helmet and more besides. The flat platform lets you carry even bulky bags like sports holdalls.

ENHANCED SAFETY

On Sportcity, even the smallest detail has been designed to let you enjoy sports riding in total safety. The front and rear wheels are both large diameter 15" six spoke aluminium wheels and are fitted with wide profile tyres for superior road holding and agility. Disk brakes front and rear ensure instant, precision braking, and the 35 mm fork gives enhanced stability during braking and cornering.

Low profile tyres and front and rear disk brakes guarantee superior comfort and safety.

The digital instrument panel combines attractive race-inspired graphics and excellent legibility.

The powerful halogen headlight and rear light cluster feature special double reflectors that create a LED effect for enhanced visibility.

INTELLIGENT TECHNOLOGY

Even the technology on Sportcity matches the expectations of riders who demand lightweight, stylish transport. The engine delivers great sports performance and agility while fully respecting the environment in the city centre and on fast urban roads. The powerful halogen headlight and rear light cluster feature special double reflectors that create a LED effect for enhanced visibility. And this important aspect of active safety is backed up by large rear view mirrors and direction indicators. The digital instrument panel combines attractive race-inspired graphics and excellent legibility. Finally, even the control switches let you access the functions of the digital display without ever having to remove your hands from the handlebars. So everything is under full control on Sportcity.

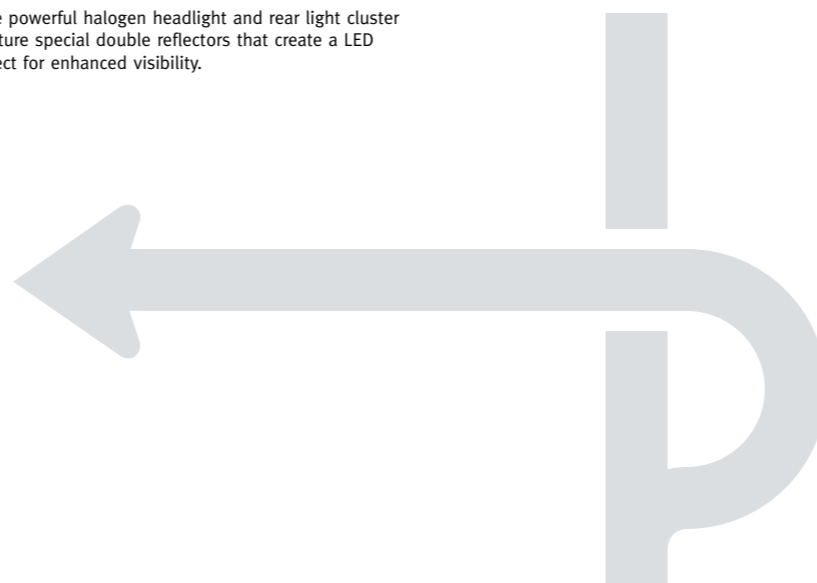

In the winter, the leg cover keeps in the warm air blown from the scooter's side vents.

Two large, side vents can deliver jets of warm air when needed.

A CLIMATE OF COMFORT

Sportcity's enveloping yet aerodynamic lines create a comfortable protected riding sensation. The leg shield is equipped with a practical bag holder and incorporates a lockable storage compartment with a 12 V power socket inside for re-charging your mobile phone. Two large side vents can deliver jets of warm air when needed. In conjunction with the optional leg cover, these make even long winter journeys pleasant and comfortable. And there are plenty of other optional accessories to make your Sportcity even more complete and versatile. Accessories include a large windshield, sports windshield, matching or standard top box, and Body-Guard armoured cable lock.

Engine	Liquid cooled horizontal single cylinder 4 stroke. Forced cooling with centrifugal pump. 4 valves with overhead cams
Fuel	Lead free petrol
Bore and stroke	57 x 48,6 mm (125 cc) – 72 x 48,6 mm (200 cc)
Displacement	124 cc - 198 cc
Compression ratio	12,5:1 (125 cc) – 11,5:1 (200 cc)
Maximum power	15 HP at 9,500 rpm (125 cc) 21 HP at 9,000 rpm (200 cc)
Maximum torque	11 Nm at 8,250 rpm (125 cc) 16 Nm at 7,000 rpm (200 cc)
Fuel system	Carburettor
Ignition	CDI electronic ignition with automatic advance
Starting	Electric
Generator	12 V - 180 W
Lubrication	Wet sump. Forced circulation with mechanical pump
Gearbox	Automatic torque converter
Clutch	Automatic centrifugal dry clutch
Primary drive	V belt
Final drive	Gears
Frame	Double cradle in high tensile strength steel
Front suspension	35 mm hydraulic fork. Wheel travel 100 mm
Rear suspension	Engine unit acting as swinging arm. Double hydraulic shock absorber with 4 spring preload settings. Wheel travel 80 mm
Brakes	Front: Ø 260 mm stainless steel disk. Twin piston floating calliper Rear: Ø 220 mm stainless steel disk. Twin opposed piston calliper
Wheels	Light alloy Front: 2.75 x 15" Rear: 3.00 x 15"
Tyres	Tubeless Front: 120 / 70 x 15" Rear: 130 / 80 x 15"
Dimensions	Maximum length: 1,970 mm Maximum width: 660 mm Maximum height: 1,300 mm Wheelbase: 1,365 mm Seat height: 780 mm
Tank capacity	9 litres (reserve 2 litres)
